CONFORMANCE WITH REGULATIONS

We hereby confirm that the raw materials used to produce LUMEX® G clear plastic sheets comply with the following –

European Regulation (EC) No. 1935/2004 on Materials and Articles intended to come into contact with food.*

Commission Regulation (EC) No 2023/2006 Good Manufacturing Practice (GMP)

Commission Regulation (EU) No. 10/2011 on Plastic Materials and Articles intended to come into contact with food and amendments up to and including COMMISSION REGULATION (EU) 2020/1245 of 2 September 2020.

The monomers and additives used to produce this product are listed in the Union List of Authorised Substances of Regulation 10/2011/EC and all amendments up to and including Commission Regulation (EU) 2020/1245 of 2 September 2020. Specific Migration Limits (SMLs) for certain substances of this material are imposed by the European Union and have been proven to meet the requirements under the specified conditions of use via testing.

FCM substance No. / CAS No.	Substance name	SML(T) [mg/kg]
227 / 107-21-1	ethylene glycol	30
785 / 100-21-0	terephthalic acid	7.5

No dual use additives with restrictions were used in the manufacture of the above-listed products.

The Commission Regulation (EU) No 10/2011 includes a limit of 10 mg/dm² on the overall migration from finished plastic articles into food. Overall migration testing was performed, and the products listed meet the required limit under specified conditions of use.

Compliance testing was completed based on the conditions set out in Regulation (EU) No 10/2011 and the conventional EU food contact ratio of 1kg of food in contact with 6 dm² of surface area.

DECLARATION OF CONFORMITY

FOOD CONTACT

*OML and SML compliance of the final application is the responsibility of the manufacturer of the finished plastic food contact material or article. In addition, we remind you that the manufacturers of the finished food contact material or article must verify that the finished material or article, manufactured according to good manufacturing practices, does not modify the organoleptic properties of the food. The user should verify applicable requirements and compliance for their own application.

FDA Regulations

the raw materials used to produce LUMEX® G clear plastic sheets complies with the compositional requirements and specifications of the U.S. Food and Drug Administration (FDA) regulation 21 CFR 177. 1315(b)(1)

SPECIAL NOTICE

We deliver plastic sheets, which are subject to further processing steps:

Machining, thermal forming, assembling, gluing and as well surface treatments as printing, polishing, etc, could influence and contaminate the product. The manufacturer or user has to verify whether the product is suitable for its final application, e.g. whether the final product might affect the taste or smell of food or whether the limitations (e.g. global migration, specific limits and other analytic requirements) are observed.

The information in this certificate is based on our knowledge and experience to date. It does not release the user from the obligation of carrying out own tests and trials, in view of the many factors that may affect processing and application; neither do they imply any legally binding assurance of certain properties or of suitability for a specific purpose. It is the responsibility of those to whom we supply our products to ensure that any proprietary rights and existing laws and legislation are observed.

As conditions and methods of use are beyond our control, we do not assume any responsibility and expressly disclaim any liability for any use of this material. Customers take the responsibility to determine that the use of our product is safe and lawful in their intended applications. The assessment of overall migration limit and other release restrictions is the responsibility of the producer of the finished article.

The information given is based on that provided to us by our raw material suppliers. Further details can be provided if required through our Customer Service Team.
